

Providing Products for all Facets  
of Accident & Health

## Fully Insured Organ Transplant Program

Fairmont Specialty's organ transplant program is designed to provide the best possible outcome for transplant patients. Our program can help reduce or eliminate the transplant risk assumed by self funded health plans, protect against potential liability related to denied transplants, and reduce overall healthcare costs associated with medical plans. Program highlights include:

- First dollar coverage at Centers of Excellence facilities throughout the country
- 100% in-network coverage, 80% out-of-network based on nearest network facility
- Coverage for most organs excluding common cornea transplants and other minor cost procedures
- Minimum group size of 50 employee lives
- Varying lifetime maximums are available up to unlimited
- Transplant evaluation is a covered benefit
- Part time and retired employees are eligible for coverage
- Case management provided by Fairmont Specialty
- Competitive pricing
- Up to 10% commissions available

Plans are underwritten by United States Fire Insurance Company

Fairmont Specialty is part of Crum & Forster group, a national commercial property and casualty group of insurance companies rated A (Excellent) by A.M. Best (2012).
